

## U.S. Grant Hotel

When the historic U.S. Grant Hotel (cir. 1910) recently went through it's \$58 Million renovation, CNP Signs and Graphics was called upon to provide the primary signage identification package. Working with a local design firm, CNP Signs implemented their ornate designs to create signage that met the standards of this 5-Star hotel. The design package included wall signage, which consisted of faux black marble sign frames with engraved acrylic faces, which included 18k gold leaf. Once installed, the signage showcased the hotels transformation.
